Please indicate which shoes or handbag you have ordered / enclosed and the colour you require below

Shoe Style / Handbag	Size	No. of Pairs	Colour to be dyed	Please confirm delivery service			Confirm Light	
				STANDARD (14 Working days)	EXPRESS (7-9 Working Days)	SUPER EXPRESS (3-4 Working days)	DAYLIGHT	ARTIFICIAL LIGHT

Dyeing Terms and Conditions

The greatest care is always taken when mixing dyes to accurately match your chosen colour but please be aware that due to infinite variations in fabrics, textures and finishes we cannot always achieve a 100% colour match.

Please be aware that a bleached shoe will not appear as white as a shoe made in white fabric.

Two tone swatches cannot be matched. We advise a solid colour sample is sent. If a two tone swatch is provided we will mix the dye to the middle shade as we perceive it. It is impossible to mimic a two-tone effect.

The dye will be mixed in natural light conditions. The colour will vary when viewed under artificial / natural light – artificial light will cast a yellow tint and distort the colour match.

The fabric and original colour of the shoes will also affect the outcome of the dye. Ivory is the preferred colour to dye in most cases.

Elastic and straps may vary in colour from the main body of the shoe once dyed. Trims, beading, edgings, stitching, chiffons and pleats may cause the dye to dry a slightly paler or darker shade. A minimal glue residue is unfortunately unavoidable around the sole and some other seams. The dye will not penetrate the glue residue.

Dyed shoes and bags are **not** colourfast. We recommend using a waterproof protector spray to stop the transfer of dye. Please note that the use of a waterproofing spray may prevent the shoes from being dyed again successfully.

If shoes have previously been dyed, they can only be dyed to a darker shade. The application of a further coat of dye could cause the fabric to become patchy. Pre-worn shoes can be dyed, however the dyeing process will not cover stains and scuffs.

To ensure consistency, all shoes for one wedding party should be dyed at once and preferably of the same fabric.

The above conditions apply to the dyeing Paradox shoes, Rainbow Club and Perfect Bridal shoes and handbags. Should any of the above occur, the relevant dyeing company or Crystal Bridal Accessories Ltd cannot be held responsible. All shoes are dyed at the customers own risk.

Please sign to confirm that you understand the potential outcomes outlined above.
